ART AWAKENINGS: An Exhibition of Empowerment & Recovery Through Creativity.
A Vision of Hope, Recovery, Diversity & Wellness: The unique collection embodies the works of multiple artists with a variety of life & art experiences that evolve through PSA Art Awakenings. The artists' works are born at five studios designed to enhance & empower the mental health community through creativity & innovation. Individuals who are challenged by behavioral illnesses find therapeutic opportunities for self-discovery, empowerment, & recovery through creative expression & development of artistic abilities. These accomplished artists are the culmination of therapeutic expressive art, self-awareness, enhanced confidence, wellness, recovery, and independence revealed in this one-of-a kind exhibition.

VIEWING THROUGH MARCH 30TH
