PSA ARTAWAKENINGS

Expanded Services for GMH/SA TXIX Funded Adults

EMPOWERMENT + RECOVERY THROUGH CREATIVITY

About Us: PSA Art Awakenings is an innovative program that uses the power of the creative arts to help adults deal with behavioral health challenges. It is a therapeutic arts environment that accepts each individual and recognizes them as unique artists in whatever manner they choose to express themselves. PSA Art Awakenings continues to serve the SMI population in addition to these expanded services for GMH/SA adults.

No prior art experience is required to participate.
